

## Solo - Cold Laminator (made in the U.S.A.)

### Great for:

- Laminating wide format wraps, signage, photos
- Mounting prints to boards
- Applying transfer tapes and reflective sheeting

### About Solo

Daige has been making laminators for over ten years and is proud to introduce its next generation model. . the new Solo cold laminator. It is so easy to use, it becomes a one person finishing system. Solo costs thousands of dollars less than other laminators, while providing you with the essential features found on more expensive models including:

- Top and bottom nip rollers covered with hard silicone
- Rigid steel cores in top roller for better pressure
- Heavy duty motor
- Automatic take up shaft
- Spring loaded top roller
- Rugged steel and aluminium construction
- Accommodates boards up to 1/2" thick (can be made for 1" thick boards upon request).
- Available in 25", 38", 55" and 65" widths.

## Laminating

With your Solo you can laminate media from long wraps down to smaller inkjet photos. Even if you are using solvent or archival inks, laminating offers important benefits.

- Provides scratch resistance and UV protection
- Protects from chemicals, dirt and fingerprints
- Keeps your print looking great during its entire life
- Extends the life of the print
- Prints look more vibrant
- Cold laminates have excellent clarity
- Variety of finishes-gloss, luster, matte

## Professional Mounting

Solo will apply adhesives to boards, then roll down the print to the board, quickly, easily and smoothly. It eliminates the hassles of squeegee by hand or the high cost of contracting out your mounting work.

## Options - Stand and Footswitch

Stand has four castors providing mobility and saving table space. Footswitch provides hand free control.

## Cold Laminates

Daige carries a full line of cold laminates in finishes including gloss, luster and matte. They provide excellent scratch resistance, UV and moisture protection. Great for indoor and outdoor use. Available in a wide range of widths.
